ReadMe file for Olympus CAMEDIA Master 4.2 Update

Thank you for downloading the CAMEDIA Master Update version 4.2. The installer downloaded with this document will update CAMEDIA Master 4.0.x/4.1 to version 4.2. Please note CAMEDIA Master 4.0.x/4.1 must be installed on your system before you can install this update.

For installation instructions and release notes, please read the remainder of this document.

Release notes:

- CAMEDIA Master 4.2 patch is available for Mac OS 9, Mac OS X and Windows 98/ME/2000 Pro/XP. Please download the appropriate patch for your operating system.
- A previous version of CAMEDIA Master 4 must be installed on your system.

This update includes the following:

- RAW development function added
- Supports RAW data for the Olympus C-8080WZ, C-5060WZ, E-10, E-20, E-1
- Improved speed of RAW development engine.
- General maintenance update.

Installation instructions:

1. Open the folder containing the downloaded file and Double-click the "Setup" icon. For Macintosh, you must double-click the .sit file to uncompress, before you can click the "Installer" icon.
 2. Carefully read the license agreement and then click "Accept" if you agree with the terms and would like to continue the installation.
 3. Click "Continue" to proceed with the update.
 4. Click "Update" and then click "Continue" to complete the installation.
 5. When the installation is finished, click "Quit".
-
